Comprehensive General Dentistry in London

From routine check-ups to complex treatments, our experienced team provides personalised dental care to keep your teeth healthy and your smile confident.

About Our General Dentistry Services at ODL Dental Clinic

At ODL Dental Clinic, we provide comprehensive general dentistry in London, combining clinical expertise with patient-focused care.

From routine dental check-ups and hygiene appointments to fillings, extractions and root canal treatment, our experienced clinicians deliver reliable treatment designed to protect your long-term oral health.

We understand that visiting a general dentist can feel daunting, which is why we prioritise clear communication, modern technology and a calm, welcoming environment.

Your dental health is our priority. We create personalised treatment plans to keep your smile healthy, strong and confident for years to come.

Root Canal Treatment

Extractions

Nervous Patients

Protecting your smile with regular, preventative care.

Regular dental check-ups are essential for maintaining healthy teeth and gums.

During your appointment, we carry out a thorough examination of your teeth, gums and mouth, including X-rays where required, as well as an oral cancer screening.

We recommend a check-up every six months to detect early signs of decay, gum disease and oral cancer - allowing treatment to begin before problems become more serious.

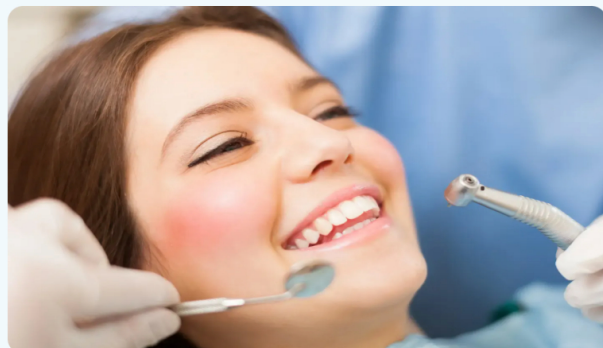

After your examination, you'll receive a personalised treatment plan outlining any recommended next steps.

Treatment Costs

£59 - Existing patients

£75 - New patients

We also offer interest-free finance options for any recommended treatments, helping you spread the cost comfortably.

Everything You Need to Know Before Treatment

How often should I visit the dentist for a check-up?

+

What's included in a general dental check-up?

+

Are dental x-rays safe?

+

Do fillings hurt?

+

When is a tooth extraction necessary?

+
